PRESENTATION

The Turia Cup – Winter Edition is a high-level competitive grassroots football tournament, designed to bring together clubs and academies of different levels in a demanding, professional and educational environment, where teams can measure the performance of their players in a competitive, well-structured and quality context.

Following the organizational and sporting success of the first edition, the Turia Cup returns in December with an optimized format, greater attention to detail and a carefully crafted experience for both players and coaching staff, with a clear commitment to growth and development towards high-level youth football.

*The Turia Cup was born with a clear idea:
Create an attractive and well-organized tournament with different sporting levels.
Bringing together clubs of different profiles, generating real competition contexts.
To offer a thoughtful and professional experience, aligned with high-level standards.
To serve as a sports showcase for clubs and players.*

The main objective is for the Turia Cup to be a benchmark tournament, both for its organization and for its future potential.
